

How to use [Wishlist Member](#) with Wahmcart.

We're currently working with the developer on how to implement an easier field in Wahmcart where you'll only need to enter the SKU number from Wishlist Member.

However, in the meantime -- there is a work around solution that's very easy to use.

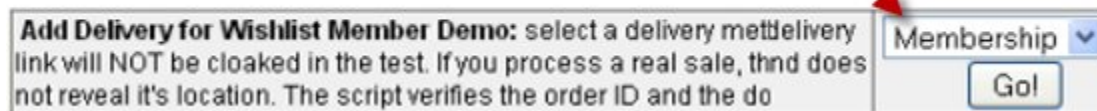

Once you set up everything in Wishlist Member, you'll want to grab the url you're going to use for 'registration' via wishlist and put it into Wahmcart's 'Delivery' area.

You'll create your product in Wahmcart, when you finish adding the product, the system will automatically go to this page:

You'll then click on "Digital Delivery".

Digital Delivery

At this point you'll look over to the right and click on the drop down menu and select "Membership".

Digital Delivery

Here's where you want to add html and the [url you created in wishlistmember](#) for the registration page, for example:

```
<p>To complete your membership, please <a href="http://www.yourdomain.com"/>register/ct7FTR"><strong>CLICK HERE</strong></a>.</p>
```

Then click on "Add"

After you click "Add" you'll be brought to this page where you can click on "Test" so see how it will look to the client once they purchase membership.

Add Delivery for Wishlist Member Demo: select a delivery method. Click "Test" to see what the delivery page will look like after a sale. **N** link will NOT be cloaked in the test. If you process a real sale, the link will point to a script on our server that cloaks the location of your do not reveal it's location. The script verifies the order ID and the download expires 24 hours after the sale.

ID	Classification		
1812	Membership	Here you'll be able to test (see the way it will appear to your clients) & edit if needed.	Test Edit

This is what the client will see immediately after purchase:

Your Logo Goes Here

Thank you for your order We have successfully processed your credit card for \$14.97. The merchant name on your credit card statement will be **None**. Your receipt was sent to

To complete your membership, please [CLICK HERE](#).

Of course it's prettier than the picture you see here – however this will give you an idea of what happens for the client. At that point they'll click on "CLICK HERE" and be taken to the registration page:

Business Registration

Fill out the form below:

To complete your membership, please select one of the two options:

- Existing members, please [click here](#).
- New members, please fill in the form below to complete your **Business** Membership.

New Member Registration

Username:

First Name:

Last Name:

E-mail:

Password (twice):

Password has to be at least 8 characters long
and must not contain spaces

That's it! You're now working with [Wishlist Member](#) & Wahmcart! Got questions? <http://wahmcart.com/support> or visit the service center, <http://wahmcart.com/service-center> 100109
